I . International Project Support Program

For medium to long-term artistic collaboration projects

This program offers grants and priority use of space at Morishita Studio in Tokyo for international theater and dance collaboration projects with not-for-profit contemporary Japanese performing artists and/or companies, including creative workshops, research and rehearsals held during the working process. Priority will be given to projects that will advance through continuous working processes, based on sufficient mutual understanding between artistic partners.

NOTE: We do not accept proposals that only include the touring stage of completed works.

NOTE: If your proposal includes digital or online phase, please explain its significance within the project outline.

- Applications will be accepted under the condition that an artistic partnership has already been established between the Japanese and foreign artists/companies who will be working together in the proposed project.
- The maximum length of a grant-receiving period for a continued project is three years; however, grantees will be requested to submit their applications each year for evaluation. Applicants may include activities related to the preparatory stage of the project, such as meetings, research, residencies, workshops, etc.
- The amount of support sought to the Foundation should not exceed the deficit in the proposed project's budget. There will be no restrictions on the purpose of spending money as long as it is related to the project. Please find out more about our current and past awardees and programs at our website [<https://www.saison.or.jp/en/library>].
- **Residency Support:** Those who wish to start collaboration projects between an overseas artist and Japanese artist and conduct an exchange residency in Japan and overseas may apply for this program as a first year of the International Project Support Program. Please check the box for Residency Support on the application form.
